

TENALEA – Trans European Network for Clinical Trials Services

Overview of documents enclosed

You requested to receive more information on TENALEA. In this package you will find the following documents:

Document	Purpose
TENALEA_Intro.pdf	General introduction to the TENALEA Initiative, and the status of initial deployment
TENALEA_Randomisation.pdf	Introduction to the TENALEA Randomisation service
TENALEA_minimisation.pdf	Detailed description of the implementation, within the TENALEA Randomisation service, of the minimization technique
TENALEA_IVRS.pdf	Introduction to the Interactive Voice Response System for registration and randomisation of patients in clinical trials
TENALEA_eCRF.pdf	Introduction to the TENALEA electronic Case Report Forms system
TENALEA_eCRF_Manual.pdf	The general user manual for the data management module of TENALEA eCRF. As part of an eCRF implementation for a clinical trial, this general manual is extended with study specific section(s) and delivered as part of the eCRF implementation project.

In case you are interested in obtaining additional documents, please refer to the contact information below.
